Here is a bit about the history of **Base Mosquito**...

The brainchild of Bulgarian-born music producer Ret Alex, **Base Mosquito's Live Electronica** effortlessly glides through fusions of trip-hop, rap, house, soul and alternative music.

*"Floating in warm with trip-hop elements featuring spacious synths and female lead vocals that create a slick, soothing, confident and chic mood" (Musync) - Music Supervisors hub for big US TV networks!*

Influences include: Groove Armada, James Blake, Bonobo and Quincy Jones and rappers like Drake Jay Z Kendrick Lamar.

**Base Mosquito's** core message is to bring people together to find their purpose and to shine a positive light in this turbulent world.

For twelve years, **Base Mosquito** has performed all over the world and enjoyed regular successes on the London club scene playing at Area Vauxhall and Scala Kings Cross. **Base Mosquito** was delighted to receive support from elite club DJ's Groove Armada, Erick Morillo, Roger Sanchez, Ferry Corsten and Mike Pickering while signed to an independent record label.

At the UK's "Live and Unsigned" competition, **Base Mosquito** were voted in the top five bands of the season.
